PROFESSIONAL SUMMARY

React Native Developer with 4 years of experience building cross-platform mobile apps for booking, marketplace, logistics and finance products, from the first screen to App Store and Google Play release. Built and published a full marketplace mobile app on my own from scratch, and worked on Next.js web apps alongside mobile. Currently expanding into backend development by building REST APIs with Node.js, Express.js and MongoDB. Seeking React Native, Junior Backend or Full Stack roles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Mobile: React Native (CLI & Expo), EAS, Expo Router, React Navigation, App Store & Google Play publishing, OTA updates

Web: Next.js, React

State & Data: Redux Toolkit, Context API, TanStack Query, REST APIs, GraphQL

Backend (learning): Node.js, Express.js, MongoDB, REST APIs, Authentication

Cloud & Integrations: Firebase, AWS Amplify, Push Notifications, Payments, Social Login, Maps, Remote Config, Crashlytics, Analytics

Tools & Process: Git, GitHub, Bitbucket, Postman, Swagger, Figma, Cursor, Claude AI, Trello, ClickUp, Slack, Agile/Scrum

EXPERIENCE

React Native Developer (Part-time) | Remote Client **Aug 2026 – Present**

- Maintaining and improving Kradoz, a live networking app that matches professionals by interests, industry and location.
- Shipping features and fixes with React Native (Expo) and TanStack Query on the existing AWS Amplify and GraphQL backend; set up OTA updates with EAS Update and handle Google Play releases.

React Native Developer | Devtags, Lahore **Oct 2025 – Apr 2026**

- Built the Booqit mobile app (UAE creative-space booking marketplace) solo from scratch with React Native CLI; live on both stores.
- Owned mobile architecture, navigation, Redux Toolkit state and REST API/Firebase integration.
- Implemented real-time chat, booking calendar, push notifications, payments, social login and location-based search.

React Native & Next.js Developer | Techvor, Lahore **Jan 2024 – May 2025**

- Naeeman, a salon booking platform for Saudi Arabia: upgraded the existing React Native app where users browse salons and services and book appointments, and released updates on both stores.
- Redesigned Naeeman's Next.js web booking app, branded per salon (e.g. JOI Salon), and added new features.
- Laari, a logistics and freight booking app: fixed bugs and built new features in the existing React Native app.

React Native Developer | App Rocket, Lahore **Apr 2023 – Nov 2023**

- Built Theepa, the company's own Android expense manager, from scratch and published it on Google Play.
- Parsed transaction SMS with regex to categorize expenses automatically; added savings and spending goals.

React Native Developer | The First Sol, Lahore **Sep 2021 – Mar 2023**

- Built The Listener, a doctor appointment booking app, from scratch with React Native and Firebase.
- Developed UI screens and integrated APIs for Pepper Pro, a crypto trading app.

PROJECTS

CleanTextLabs | Next.js **Apr 2026 – Present**

- Built and maintain a free online text-cleaning web tool, and improved its page load performance.

Backend Practice Projects | Node.js, Express.js, MongoDB **Apr 2026 – Present**

- Building REST APIs while learning backend development.

EDUCATION

BS Computer Science (BSCS) | Lahore Garrison University, Lahore **Oct 2017 – May 2021**

Languages: English, Urdu
